ENJOY SAFER TECHNOLOGY™

# INTERNET SECURITY 10

All-new ESET Internet Security® 10 delivers rock-solid protection for everyday web users, built on ESET's trademark best mix of detection, speed and usability. As well as giving you proven ESET Antivirus, it shields your webcam, lets you check your home Wi-Fi router's security, and helps you bank and pay more safely online.

13-YEAR  
UNBEATEN  
RECORD

## Making the internet safer for you to enjoy

Explore the great online, securely protected by ESET's award-winning detection technology. It's trusted by over 110 million users worldwide to detect and neutralize all types of digital threats, including viruses, rootkits, worms and spyware. It also protects against techniques that seek to evade detection, and blocks targeted attacks and exploits.

<b>Antivirus and Antispyware</b>	Provides proactive protection against all types of online and offline threats and prevents malware spreading to other users
<b>Exploit Blocker</b>	Blocks attacks specifically designed to evade antivirus detection and eliminates lockscreens and ransomware Protects against attacks on web browsers, PDF readers and other applications, including Java-based software
<b>Advanced Memory Scanner</b>	Enables improved detection of persistent malware that employs multiple layers of encryption to conceal its activity
<b>Cloud-Powered Scanning</b>	Speeds up scans by whitelisting safe files based on the ESET Live Grid® file reputation database Helps to proactively stop unknown malware based on its behavior, by comparing it with our cloud-based reputation system
<b>Scan While Downloading Files</b>	Decreases scanning time by scanning specific file types – such as archives – during the download process
<b>Idle-State Scanning</b>	Aids system performance by performing in-depth scans when your computer is not in use Helps detect potential inactive threats before they can cause damage
<b>Host-Based Intrusion Prevention System (HIPS)</b>	Lets you customize the behavior of the system in greater detail Gives you the option to specify rules for system registry, active processes and programs, and fine-tune your security posture
<b>Script-Based Attack Protection</b>	Detects attacks by malicious scripts that try to exploit Windows PowerShell Also detects malicious JavaScripts that can attack via your browser. Mozilla Firefox, Google Chrome, Microsoft Internet Explorer and Microsoft Edge browsers are all supported

## Enjoy the full power of your computer

Leaving more power to the programs you use daily, ESET Internet Security 10 lets you play, work and browse the internet without slowdowns. Stay unplugged and online longer with battery-saving mode and enjoy gaming without distracting pop-ups.

<b>Small System Footprint</b>	Maintains high performance and extends the lifetime of hardware Fits any type of system environment Saves internet bandwidth with extremely small update packages
<b>Gamer Mode</b>	ESET Internet Security automatically switches to silent mode if any program is run in full-screen System updates and notifications are postponed to save resources for gaming, video, photos or presentations
<b>Portable Computer Support</b>	Postpones all non-actionable pop-up windows, updates and system-hungry activities to preserve system resources so that you can stay online and unplugged longer

## Protect your privacy

Stop hackers from misusing your passwords and stay safe while online banking and making online payments. Enjoy safer connections, protect your webcam and home Wi-Fi router from intruders, and prevent your private data from being copied to unauthorized flash drives.

<b>Webcam Protection</b> <small>NEW</small>	Constantly monitors all the processes and applications running on your computer, to see which ones want to use your webcam. It alerts you to any that unexpectedly try to access your webcam, and lets you block them.
<b>Home Network Protection</b> <small>NEW</small>	Get ready for the Internet of Things (IoT) with this extra security for your home Wi-Fi router. Enables you to test your home router for vulnerabilities, such as weak password or out-of-date firmware, and offers you options for remediation. Also provides you with an easy-to-access list of connected devices, with devices categorized by type (e.g. smartphone, IoT, etc.), to show you who's connected.
<b>Personal Firewall</b>	Prevents unauthorized access to your computer and misuse of your personal data
<b>Network Attack Protection</b>	In addition to Personal Firewall, automatically protects your computer from malicious network traffic, blocking threats revealed by dangerous traffic patterns
<b>Banking &amp; Payment Protection</b>	Features a special secured browser through which you can safely pay online Automatically protects you on internet banking sites Encrypts the communication between the keyboard and the browser for safer transactions Protects you from keyloggers
<b>Botnet Protection</b>	Added layer of security that protects against botnet malware – preventing your computer from being misused for spam and network attacks Benefit from a new type of detection thanks to Network Signatures, for even faster blocking of malicious traffic
<b>Anti-Phishing</b>	Protects you from attempts to acquire sensitive information such as usernames, passwords or other sensitive personal details by fake websites masquerading as trustworthy ones
<b>Out-of-Home Network</b>	Alerts you when connecting to an unknown network and prompts you to switch to the Strict Protection mode Makes your device invisible to other computers connected to the same network
<b>Device Control</b>	Allows you to prevent unauthorized copying of your private data to an external device Allows you to block storage media – CDs, DVDs, USB sticks, and disk storage devices Lets you block devices connecting via Bluetooth, FireWire and serial/parallel ports
<b>Antispam</b>	Keeps unwanted emails from clogging your mailbox
